## *Guidelines for One Gallon Fall Production*

- Pot 50 cell plug clematis in mid-August to mid-September.
- Grow outside in cold frame.
- Cut back foliage in late fall to about 6" long & clean off all lower leaves.
- Spray with fungicide for botrytis before covering.
- Over winter in cold frame with white poly and thermal blanket.
- Use a 26" trellis in spring when plants begin to break dormancy.
- Fertilize when plants break dormancy.

## *Reasons For Poor Finished Clematis Crop*

- Growing crop too cold.
- Using poorly drained mix.
- Allowing plants to go totally dry.
- Timing crop too early or late.
- Failure to train plants on a regular basis.
- Failure to use attractive trellis.
